PREP COIN™ — WHITEPAPER

Version: April 2026

Summary

Prep Coin™ (PREP) is a fully operational, audited, and KYC-verified Solana ecosystem combining real-world preparedness with blockchain utility. The project includes a live prepping gear shop with card/BACS/crypto payments, a staking and governance system, a mobile/desktop endless-runner game with a live leaderboard, and a growing supplier network. PREP has real-world traction through The Bushcraft Show and Bug Out Weekender, a 6,611-subscriber YouTube channel, and monthly non-dilutive liquidity additions. Grant funding will accelerate automation, Solana Pay integration, a direct PREP on-ramp, and targeted onboarding of practical, real-world users into Solana.

1. Executive Summary

Prep Coin™ (PREP) is a Solana-based utility token powering a hybrid ecosystem that connects blockchain technology with real-world prepping, resilience, and outdoor readiness. The ecosystem includes:

- PREP — the primary utility token
- Prep-STK — the staking and governance token
- Prep Cache — a live prepping and resilience gear shop
- Prep Runner — a mobile + desktop endless-runner game with a live leaderboard
- Educational content — via YouTube (@PrepCoin, 6,611 subscribers) and community channels

PREP is fully audited by Cyberscope, the founder (Kris Browning) is KYC-verified, the brand is UK-trademarked, and the ecosystem already includes live card payments, BACS payments, crypto payments, staking, governance, and a growing supplier network.

Grant support will accelerate:

- Automation of the Prep-STK discount and burn system
- Solana Pay integration
- A direct PREP on-ramp (card → PREP)
- Targeted marketing to onboard practical users into Solana
- Content and community expansion

PREP is a real, functioning ecosystem — not a concept.

---

2. Mission & Identity

PREP bridges blockchain with practical preparedness.
The mission is to build a digital ecosystem that supports real-world resilience through:

- Accessible, field-tested gear
- Educational content

- Community-driven governance
- Transparent tokenomics
- Gamified engagement
- Long-term sustainability

PREP is built by individuals with deep experience in both crypto and real-world preparedness.

---

3. Founders Story

Kris Browning
Crypto researcher, builder, and outdoor instructor with hands-on experience in resilience, gear testing, and survival skills. Kris designed the PREP ecosystem, the Prep-STK model, the Prep Cache shop, and the Prep Runner game. He led the audit, KYC verification, token deployment, and overall architecture.

Andrew T. Price
Founder of Dryad Bushcraft and an Ambassador for The Bushcraft Show, one of the UK's largest outdoor and resilience events. Andrew brings decades of outdoor education experience, public credibility, and direct access to the UK prepping community.

Together, they built the first hybrid prepping + blockchain ecosystem in the UK.

---

4. Team

Kris Browning — Founder & Project Architect
Oversees operations, compliance, partnerships, staking, governance, and long-term strategy.

Andrew T. Price — Co-Founder & Public Ambassador
Leads public outreach, educational content, and real-world event representation.

---

5. Ecosystem Overview

The PREP ecosystem consists of five interconnected components:

- PREP Token
- Prep-STK Token
- Prep Cache Shop
- Prep Runner Game

- Community & Education Channels

---

6. Utility Breakdown

PREP Token Utility

- Staking
- Governance
- Access to ecosystem benefits
- Future Solana Pay integration
- Future P2E rewards

Prep-STK Utility

- Governance voting
- Shop discounts
- Deflationary burn on redemption
- Manual redemptions live now
- Full automation planned

Prep Runner — Endless Survival Game

- Playable on mobile and desktop
- Live leaderboard
- Movement controls, obstacles, scoring, health
- Free-to-play
- Future P2E integration once liquidity is stronger

Ecosystem Utility

- Workshops
- Tutorials
- Gear testing
- Reviews
- Real-world preparedness education

---

7. Prep Cache — The Official Shop

Prep Cache is the real-world utility hub of the PREP ecosystem.

Payment Methods

- Credit/debit card
- BACS
- Crypto (NOWPayments)

⭐ Planned Integration (Updated)

Prep Cache will expand its payment infrastructure to support a complete Solana-aligned ecosystem:

1. Direct PREP Purchases (On-Ramp Integration)

Users will be able to buy PREP directly using card, Apple Pay, Google Pay, or bank transfer through a regulated on-ramp provider.
This removes the need for SOL, swapping, or DEX usage — the biggest barrier for non-crypto users.

2. Solana Pay (Web3-Native Checkout)

Solana Pay will be added as a native payment option for users who prefer Web3 flows.
This includes tap-to-pay, manual entry, and optional QR support.

3. Multi-Payment Checkout (NOWPayments + Square)

Prep Cache will continue supporting PREP, SOL, USDC, USDT, debit/credit cards, and BACS.
This ensures maximum accessibility for non-crypto users while still showcasing Solana's speed and low fees.

Together, these integrations create a seamless loop:
Buy PREP → Hold PREP → Spend PREP,
bringing a new demographic into the Solana ecosystem through practical, real-world use.

Supplier Network

Active trade accounts with:

- Hennie Haynes
- Sawyer
- Polymath Products
- Mora Distribution UK
- SilverAnt Outdoors
- Base Camp Foods
- The Bug Out
- Additional UK and USA manufacturers

Revenue Reinvestment Model

All profits are reinvested into:

- Marketing
- Liquidity
- Development
- Long-term sustainability

---

8. Why PREP is Different

PREP is not a meme coin.
It is a utility-first ecosystem with:

- A UK trademarked brand
- Audited smart contracts
- KYC-verified leadership
- A live shop
- A live game
- A staking system

- A governance token
- Real-world outreach
- A growing supplier network
- Transparent liquidity behaviour
- Monthly LP additions
- Real-world events and partnerships

PREP combines blockchain with practical preparedness — a unique hybrid model in the UK.

---

9. Real-World Outreach & Events

PREP has strong real-world presence through Andrew T. Price's role as Ambassador for The Bushcraft Show.

2025

- Promoted the presale inside the Prepping Zone at The Bushcraft Show
- Attended the Bug Out Weekender to support the partnership with The Bug Out

2026

- Returning to The Bushcraft Show to promote the full ecosystem

These events provide trusted, direct access to the UK prepping and bushcraft community.

---

10. Grant Readiness & Impact

PREP meets key criteria for Web3 grant consideration:

- Audit: Cyberscope
- KYC: Founder verified
- Trademark: PREP Coin™ registered in the UK
- Utility: Live shop, staking, game, payments
- Roadmap: Clear and phased
- Community: YouTube @PrepCoin (6,611 subscribers)
- Transparency: Wallets, liquidity, tokenomics
- Real-world outreach: Bushcraft Show + Bug Out Weekender

Proposed Use of Grant Funds

- 30% — Automated Prep-STK discount + burn system

- 30% — Solana Pay integration
- 25% — Direct PREP on-ramp + onboarding
- 15% — Content creation + operational support

This funding accelerates:

- User onboarding
- On-chain activity
- Ecosystem utility
- Real-world adoption

---

11. Tokenomics

Total Supply: 10,000,000 PREP
Blockchain: Solana
Type: Utility token
Contract: BbHs6NtTkHmxQmfaiVpNGUBNehgpQr3WUXjnkyjqh5S6

Distribution

- Founders: 20%
  Locked until 8 May 2026, with the intention to extend the lock to reinforce long-term commitment.
- Community & Public: 42.5%
- Presale: 12.5%
- Private Sale: 5%
- Liquidity Pool: 10%
- Development/Marketing: 12.5%
- Shop Discounts: 5%

---

12. Transparency & Wallet Allocation

PREP prioritises full transparency.

Liquidity Behaviour

Multiple 0.5 SOL + equivalent PREP additions (purchased on the open market to avoid dilution) were completed in March 2026, with the latest on 31 March 2026.

Founders' Lock

The team intends to extend the founders' lock beyond the current end date to maintain long-term stability and trust.

Liquidity Lock

All liquidity remains permanently locked and verifiable on Solana Explorer.

---

13. Roadmap (Updated)

Phase 1 — Foundation (Completed)

Deployment, audit, KYC, staking, presale, launch.

Phase 2 — Utility Launch (2026)

Live shop, card/BACS/crypto payments, Prep Runner, manual Prep-STK redemptions, liquidity enhancements.

Phase 3 — Expansion (2026)

- Solana Pay integration
- Direct PREP on-ramp (card → PREP)
- Prep-STK automation
- Payment-flow optimisation (Buy → Hold → Spend)
- Marketing and community growth
- Prep Runner enhancements

Phase 4 — Scaling (2027)

- PREP wallet/app for frictionless onboarding
- Advanced features and automation
- Expanded shop catalogue
- Full P2E rollout
- Larger real-world events and partnerships

---

14. Partnerships

- Dryad Bushcraft
- The Bug Out

- The Bushcraft Show
- Supplier network across UK & USA

---

15. Community & Content

Active channels:

- YouTube (@PrepCoin)
- Andrew T. Price's YouTube channel
- Telegram
- X (@PrepCoinHQ)
- Facebook

Content includes tutorials, gear reviews, and preparedness education.

---

16. Risk Factors & Disclaimers

PREP and Prep-STK are utility tokens, not investments.
Token value may fluctuate.
Users are responsible for regulatory compliance.
All smart contracts are audited and publicly verifiable.
